# Yash Kumar

B.Tech Student | Python Developer | Data Science & ML Enthusiast  
| Ninja Dominator | 28x DSA Badges | 2x University Topper  
@Code360 | LeetCode Contributor  
Noida, Uttar Pradesh, India

## Summary

Hello, I'm Yash, a driven B.Tech student deeply passionate about technology and its applications. My expertise spans various domains including web development, Python programming, data science, machine learning, and artificial intelligence. I take pride in consistently achieving excellence, reflected in my #1 rank on the weekly leaderboard with the Ninja Dominator title on Coding Ninjas Studio.

Coding Excellence: I have published over 30 questions on LeetCode and solved 800+ questions on Coding Ninjas Studio, earning 28 master badges in Data Structures and Algorithms (DSA). I have been honored twice as the university topper on Coding Ninjas Studio.

### Skills:

- Proficient in Python programming, with a focus on developing robust web solutions.
- Experienced in leveraging data science techniques for insightful analysis and machine learning model development.
- Strong foundation in data structures and algorithms, enabling efficient problem-solving capabilities.

### Interests:

I am enthusiastic about exploring emerging technologies, collaborating on innovative projects, and contributing to the tech community. Outside of academia, I enjoy staying updated on industry trends and continuously expanding my skill set.

### Future Outlook:

I am excited about the opportunities to apply my skills, learn from industry experts, and contribute meaningfully to impactful projects.

I look forward to connecting with like-minded professionals and embarking on new challenges together.

---

## Experience

### Cognifyz Technologies

Machine Learning

May 2024 - Present (1 month)

### InternPe

DSA (C++) Programming

May 2024 - Present (1 month)

### Entrepreneurship Cell, Galgotias University

7 months

#### Technical Team Member

February 2024 - Present (4 months)

#### Ambassador Team Member

November 2023 - Present (7 months)

### Outlier AI

6 months

#### Platinum Coder

December 2023 - Present (6 months)

- ↳ Designed sophisticated coding prompts aimed at uncovering discrepancies in responses.
- ↳ Developed model responses serving as benchmarks for future AI-generated replies.
- ↳ Examined differences across multiple interactions, identifying where AI might miss earlier information.

### AI Consultant

February 2024 - May 2024 (4 months)

- ↳ Resolved and evaluated programs on algorithms and projects intended for ingestion into AI systems.

### CodSoft

Artificial Intelligence Developer

April 2024 - May 2024 (2 months)
